

## STATEMENT FROM TM ON BROADBAND LITE 1Mbps

With regards to the recent article on Lowyat.net on Broadband Lite 1Mbps, we wish to clarify that the Broadband Lite 1Mbps is an existing plan that was launched in 2015. It was introduced as a plan for lite usage users in Streamyx coverage areas. As we continue with our fiberisation expansion, Streamyx plans will be phased out.

Our team recently updated the link to the plan as the original link had already expired. It is not a new introduction. We apologise for any confusion caused.

TM also offers Jaringan Prihatin plans to address the needs of the B40 customer segments as well. In support of the Jaringan Prihatin programme announced by the Government, unifi is offering unifi Mobile 39 postpaid plan and unifi #BEBAS prepaid plan to Malaysians who are eligible for Bantuan Prihatin Rakyat (“BPR”).

The postpaid plan; unifi Mobile 39, is now priced at only RM24 (exclusive of SST) per month with a RM15 monthly subsidy from the Government. The plan also comes with an additional 30GB LTE data per month on top of the existing 5GB of data quota. Meanwhile, the unifi #BEBAS prepaid starter plan priced at RM10 comes with a 2GB data quota monthly and free 1GB LTE data daily.

The details of unifi Mobile 39 Postpaid plan and unifi #BEBAS postpaid plan are as below:
